

## SELF ADHESIVE SPONGE EXTRUSIONS

At Ambassador Industrial we can offer our range of extrusions in a self adhesive form by applying a pressure sensitive tape to one side.

Ideal for use in sealing applications where a quick, clean installation is needed, and with a huge range of differing profiles on offer, we are sure to be able to offer you the right seal to do the job.

Ambassador Industrial can also custom manufacture self adhesive profiles in a variety of compounds including EPDM, Neoprene. (Min Run Required)
