## SHEET RUBBER - UTE MATS

Ambassador Industrial's ute matting is manufactured from natural rubber specially ribbed on top to provide both drainage and a non slip surface along with a cloth back to prevent the mat tearing and also to stop the mat moving around when not carrying a load.

### **SR WRIB**

Manufactured in continuous rolls 1000mm, 1200mm, 1500mm, 1830mm and 2000mm wide, 5mm thick and 10 metres long they, can easily be cut to size.

---

### **SR UTE1830**

This ute mat is made from 10mm heavy duty natural rubber. The back is designed with studded back and drainage holes to allow the mat to breath and drain.

Manufactured in continuous rolls of 1830 wide, 10mm thick and 10metres long, they can be easily cut to size.
